„Einzigartiger Kölner Psychedelic Stoner Death Blues“

Wer Monocluster hört, erlebt schnörkellosen und ehrlichen Stonerrock, der mit deutschen Texten und kompromissloser Härte direkt ins Ohr geht.

"Tolles Debut von einer Band, die mal eben ihr eigenes neues Genre definiert. Harter Psychedelic Stoner Rock mit deutschen Texten" - Rockblog Bluespot

"...this Cologne quartet turned out to be something really special. Monocluster's eponymous debut starts out with a nice, heavy psych interlude, making way for a riff that clearly means business....The progressive interludes breaking into intense riffs with interesting tempo changes, chord progressions, and passionate vocals fueling psychedelic jams are a recipe for repeated plays. I liked it so much, in fact, that at first I didn't even notice the vocals are entirely in German." - Billy Goate - Doomed&Stoned

"Psychedelic fuzz from Germany, sung in the native language and beautifully rendered with a reminiscence of Colour Haze in its similar quality of heavy psych sound" - Heavy Planet
